in Anastasija Lagodzinska  ⬤ ALagodzinska

I started a career in IT independently by learning online. Hardworking, open-minded, and curious about everything new. Ambitious and creative, always striving for the best in oneself and others.
Good at software development using **C#**, **.NET framework** and **JavaScript**. Presently focusing on enhancing Front-end skills through Udemy courses in **React**.

Seeking opportunities to advance my career and further enhance my practical knowledge.

## Work Experience

### Software Engineer Intern • Accenture

July 2022 - October 2022

Under the guidance of a mentor, successfully completed various individual C#/.NET projects. Worked with Azure DevOps, learned and applied knowledge of code design and principles to create projects.

Examples of my code during Accenture tenure:
- *https://github.com/ALagodzinska/ConwaysGameOfLife*
- *https://github.com/ALagodzinska/Savanna-Game*

### Sales Associate • APRANGA Group

December 2021 - July 2022

Work was focused on customer service - listening to customer needs, giving style advice and providing assistance. Other responsibilities included: maintaining store clean and organized, working in the stockrooms and handling cash transactions.

### Intern Designer Assistant • KATYA KATYA

June 2021 - October 2021

Assisted with garment creation - done hand and machine sewing, embroidery, labelled and sorted dresses, assisted with photoshoots and organization.
